

How to adjust the notifications I receive from Schoology

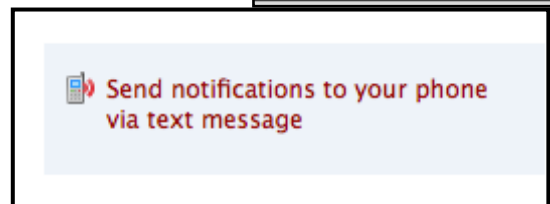

Once you are logged into your parent account on Schoology, you can change the notification settings by following these steps:

1. Click on the down-facing arrow on the top right of the Schoology account.

2. Select Notifications.

3. You have the option to get notified by email or text message.

4. You can also turn notifications off.

For example: if you do not want to receive the school notices to students, scroll down to the "School" section and turn the notices off.

If you have further Schoology Questions

If you have additional questions or do not have your child's parent account code, please contact the Technology TOSAs at Islander Middle School or Mercer Island High School:
