

Qualifying Criteria

| Domain Scores | Percentile Equivalents |
|---------------|------------------------|
| 14 | 100 |
| 13 | 100 |
| 12 | 99 |
| 11 | 99 |
| 10 | 98 |
| 9 | 97 |
| 8 | 96 |
| 7 | 94 |
| 6 | 92 |
| 5 | 90 |
| 4 | 87 |
| 3 | 84 |
| 2 | 80 |
| 1 | 75 |
| 0 | 72 |

A student qualifies for Highly Capable Program services if he or she has a score of “10” (the 98th percentile) in one domain *and* “8” (the 96th percentile) in the other domain.

Reasons for Using the Matrix

- It is approved through consultation with Dr. David Lohman, the co-author of the CogAT.
- It uses the same test measures we have traditionally used for identifying students in need of gifted services.
- It incorporates ability and achievement as required by the Washington Administrative Code 392-170-055.
