**Key Signatures**

The **KEY SIGNATURE** is the group of SHARPS or FLATS placed right after the clef. It directs which sharps and flats are to be used throughout the music. Within a key, the notes and chords used create a strong feeling of a tonal center, in which a note or chord feels like “home”, or “the resting place”, in that key.

All the Fs, Cs, and Gs are sharped throughout the song. All the Bs and Es are to be flatted in this song.

Thus, the **key signature** provides two functions. It tells you:
- which notes to be sharp or flat in a piece, and
- the tonic note, or **key**, of the piece.
